How This Passport Works

1

Read a symbol's story

Go through India's Symbol Trail together — flag, emblem, tiger, peacock, lotus and all the rest.

2

Talk about it

Use the "Explain it to my toddler" or "preschooler" version on the trail page to chat about what makes each symbol special.

3

Colour the stamp

Find the matching stamp box on the pages ahead. Let your child colour it in, draw a smiley, or press a sticker — their choice!

4

Collect all 17

Once every stamp box is filled, your little explorer has completed the whole Symbol Trail — turn to the last page for their certificate!

Printing & Assembly

Print all 6 pages of this passport on A4 paper. Stack them in order, then staple once along the left edge (the spine) to bind them into one booklet. That's it — no cutting or folding needed!
